

GERMANS USE MUCH POWDER

Wastefully Consume Explosives in Making Their Attacks.

MORE THAN LAVISH AT TROYON

Discharge More Than 4,000 Shots in Five Days of Siege, with Resulting Casualties Num.

(Correspondence of the Associated Press.) PARIS, Oct. 4.—Part of the story of the bombardment and assaults upon the fortress of Troyon has been told.

The story from the inside shows how prodigal are the Germans with their powder. From the 8th to the 12th of September they fired more than 4,000 shots from three-inch, eight-inch and ten-inch guns.

The casualties in the fortress were four killed and forty wounded, while the damage was incalculable, excepting from one shell fired suddenly from a ten-inch mortar, which dismantled a gun and dug a hole through masonry a yard and a half thick and penetrated two and a half yards of earth.

The fort sustained two assaults which, as is already known, were repulsed with great slaughter, 7,000 bodies having been found around the fort after one assault.

Refuse to Surrender. On two occasions an envoy was sent by the German commander, who summoned the garrison to surrender in these terms: "In the name of his imperial majesty I summon you to surrender unconditionally."

"Never" was the reply. On the second visit of the envoy he complained severely of having been fired on by Fort Genicourt and declared after receiving the commandant's response: "We shall meet again, however."

After each visit of the envoy the bombardment resumed more furiously than ever and at times as many as 250 shots were fired in half an hour.

An artilleryman who took part in the defense of Maubeuge declares that the amount of powder burned there was even greater than at Troyon. For nine hours at a stretch, he states, during one day of the most furious bombardment, the Germans fired shells weighing 3,000 pounds each at the rate of four per minute.

An aggregate of 1,000 tons of powder and metal during the nine hours were used upon only one of the forts around the city.

Mr. George Concedes Election of Morehead by a Few Thousand

(From a Staff Correspondent.) LINCOLN, Neb., Nov. 4.—(Special Telegram.)—Chairman George of the republican committee, concedes the election of Governor Morehead by probably 5,000 to 10,000, while the Star (democratic) concedes the election of the republican state ticket below governor by fair majorities.

The Star also concedes the election of three republican congressmen—Reavis in the First, Sloan in the Fourth and Kincaid in the Sixth, and the "probable" election of Barton, republican, in the Fifth.

Republicans Gain in Richardson

FALLS CITY, Neb., Nov. 4.—(Special Telegram.)—The republicans made wonderful gains in this county at yesterday's election. The county went republican with the exception of register of deeds and county superintendent. Unofficial returns from the twenty precincts show the state ticket, Morehead, 2,200 against Howell's 2,054, a majority of 146 for Morehead, where his majority in 1912 was almost 1,100.

Reavis polled 2,204 against Maguire's 1,824. For representative from the First district, Relschick (dem.), defeated Ayres (rep.), 2,304 to 1,624. In the Third, Howe (rep.), 2,084, against Parriott (dem.), 1,967.

In the county ticket the republican majorities were big, except for county treasurer, when Evans (rep.), beat Morris (dem.), by eight votes. Gagnon, an office-holder for twenty years, goes under to White (rep.), for county judge by more than 800, and Leyda (rep.), beat Miller, over 600. Fatchin (rep.), beat Aldrich for sheriff over 800.

The suffrage amendment carried in the city by a small majority; the county is doubtful.

Nebraska Students to Visit Stock Yards

LINCOLN, Nov. 4.—(Special.)—Fifteen students of the Nebraska College of Agriculture at Lincoln are expected to arrive in Omaha and South Omaha Saturday morning, where they will judge cattle and horses at the stock yards and visit other points of interest in the two cities.

The visit is incident to several trips being made to different parts of Nebraska, Missouri, Iowa, Kansas and Illinois, where the students are receiving practice in this work previous to the selection of a stock judging team to be sent to Chicago at the International Live Stock exposition. The party will be in charge of Howard J. Gramlich, professor of animal husbandry at the university farm.

Carlson Has Good Lead in Colorado

DENVER, Colo., Nov. 4.—Returns which have been filtering in slowly from yesterday's election, tend to confirm the claims of the republican state headquarters that George A. Carlson has been elected governor, the headquarters' claim being 2,000 over T. M. Patterson, democrat. Democratic headquarters still professed to have a "fighting chance."

Figures from 394 precincts reported at noon gave C. S. Thomas, democrat, a slight lead over Hubert Work, republican, for senator.

The wet and dry contest drew closer today, with 149 precincts out of 198 in Denver reported. It was conceded that the city of Denver would give a considerable majority for the wets, but anti-saloon headquarters declared that this would be overcome outside the city and that prohibition would carry by 30,000.

later years by doing hard work for 50 cents a day."

Protests Crowded Schools. Superintendent Barr protested against crowded schools and concluded with a plea for the protection of children against vicious environments and abscondities of officers of the law. He said many children of 9 and 11 years had been prosecuted or kept in jail in Nebraska for minor offenses, and cited cases in Hastings.

Concluding Mr. Barr pleaded for an enforcement of the law prohibiting children from working in factories. He said there are now 5,000 children in the state violating this law. He protested against motion picture shows of the criminal sort and against "bad" advertising in newspapers and on billboards.

In the afternoon David Snedden, commissioner of education of Massachusetts, addressed the assembly. He said he believed that in time there would be a differentiation between pupils of 12 and 15 years of age and elementary pupils, and that separate schools would be established for them where the work they would be largely elective. For each sixty or seventy elementary pupils a superintendent should be appointed, he said.

Visit Commerce School. Superintendent E. U. Graff, Mr. Snedden and Prof. G. D. Strayer of Columbia college visited the Omaha schools. Mr. Snedden was much pleased with the work at the Omaha High School of Commerce. He said:

"You are doing something new there and in two years you have put the school on a most practical basis. The school seems to be in excellent condition."

Association officials reported a registration of 1,726 at 12:30 o'clock. In the afternoon several hundred teachers arrived, the Peru-Normal teachers coming on a special train.

An attempt is being made, and has so far been successful, to keep politics out of this meeting. There is a deep-seated disgust of political intrigues and no effort is being made to boost any particular candidate for president or any other office.

"We've had about enough of politics," said O. P. Stewart. "We are trying to make this an educational association meeting."

Too Much Politics. Partly because of past "political plays" and partly for other reasons several towns in the state did not send their teachers to this meeting. Superintendent Roy Cochran of Kearney came, but the Kearney School Board kept the teachers home, being dissatisfied with the past work of the association.

The towns which have so far failed to send teachers to the meeting for "political" reasons are Hastings, Sterling and Adams. This is one of the reasons why the association members feel they should cease playing politics and devote their energies to the business of education.

Although there are many towns which will not be represented at the meeting, Miss Bell M. Ryan, in charge of the registration, believes the enrollment will reach at least 4,000. Comparatively, the registration for the first day is about the same as the registration the first day last year.

Program for this evening at 7:45 at the Auditorium. Fifteenth and Howard streets.

Vocal Solo—(a) Aria from "Madame Butterfly" (Puccini). (b) Musetta's Waltz Song from "La Boheme" (Puccini). Miss Helene Sadleir.

The Ethical Standards of a Teaching.

Platt Probably Elected Senator

CARSON, Nev., Nov. 4.—Samuel Platt, republican, for United States senator, continued to increase his lead over Francis G. Newlands, democrat, in the returns today from yesterday's election in Nevada. Fifty-eight precincts out of 240 in the state gave Platt 2,157; Newlands 2,361.

The same precincts gave the following total: Congress—Roberts, republican, 2,587; Fowler, democrat, 2,488; Scanlon, socialist, 78.

Governor—Oldie, republican, 2,390; Boyle, democrat, 2,343; Morgan, socialist, 1,018.

Woman Suffrage—For, 1,009; against, 756.

Election in Utah Closest in History

SALT LAKE CITY, Nov. 4.—At 11 o'clock today the result of what appears to be the closest election in the history of the state remains in doubt, with a prospect that practically complete returns will be required to determine the result.

The vote between Smoot, republican, and Moyle, fusion (democrat-progressive), for senator, is especially close, with both sides claiming victory. The republicans carried Weber, the second county of the state, and the fusionists apparently carried Salt Lake, the largest county. Available returns make it appear probable that Howell, republican, has been re-elected to congress in the First district and that Mays, fusion, has won in the second.

SEVENTY SHELLS FIRED AT THE TURKISH FORTS

PARIS, Nov. 4.—(3 p. m.)—A dispatch to the Havas News Agency from Athens says that the bombardment of the forts of the Dardanelles, which was participated in chiefly by the British fleet, was suspended momentarily, but later was resumed, and continued until 10 o'clock this morning. Seventy shells in all were fired at the Turkish forts.

Robbing the Bottle

That's what you do when you take the cream off the top of the milk bottle. There's but little food value left in the blue milk.

Cottage Milk is rich and creamy to the last drop. You can use part of it full strength for cream and dilute the rest for cooking purposes and always have the proper food value.

Cottage Milk is pure, rich milk with more of the water taken out and nothing added. It lasts indefinitely. Get a sample today and see how superior it is to bottle milk.

Another Doll For Our Little Busy Bees

WHO WILL BE THE LUCKY LITTLE GIRL THIS WEEK?

This doll's name is DOROTHY. Some say she is even more beautiful than Alice. Anyway, she is certainly very pretty, with her dark hair and eyes; beautifully dressed, and 25 inches high.

Dorothy will be given free to the little girl, under 10 years of age, that brings or mails us the largest number of doll's pictures out of the Daily and Sunday Bee before 4 p. m. Saturday, Nov. 7th.

Her picture will be in The Bee every day this week. Cut them all out and ask your friends to save the pictures in their paper for you, too. See how many pictures of Dorothy you can get, and be sure to turn them in to The Bee office before 4 p. m., Sat. Nov. 7.

If you don't win this Dollie, perhaps you can get one next week. Only one doll will be given to any one person.

You can see Dorothy at The Bee Office
